

Town of Verona Survey Design and Use of County Highway PD Site and Structures

The new Town Hall and Public Works facility will occupy about 3-5 acres of land. The Town Board will likely sell the excess property from this parcel. Revenue from the sale of excess property will be used to offset some of the costs of building the new facilities. How much additional land the town keeps will depend on potential uses and/or services town residents' desire. This survey is intended to provide the Town Board and Open Space and Parks Commission with information that will assist them in making several critical decisions.

Are you aware that the Town of Verona purchased property in 2014 for the purpose of constructing a new Town Hall and Public Works facility?

If you think the Town should have a drop off point for other materials (e.g. tires, batteries, electronics, etc.), please write those in the space below.

(Please keep in mind a fee would likely be required for any additional service)

Would you be willing to pay for curbside pickup of brush?

(Assume a fee that covers the Town's costs for providing such a service would be charged only to those who use the service)

The preliminary design of the Town Board room/Election Hall includes space that also could be rented for private events (e.g. graduations, retirement parties, baby showers) or used for community meetings such as 4H meetings, senior citizen gatherings, boy or girl scout meetings, etc.. This is commonly done in many Towns. Would you be interested in using such a space?
