Kevin Lord, PE/PLS
MSA Professional Services, Inc.
2901 International Lane, Suite 300
Madison, WI 53704-3133
608-242-7779

*If you have questions or concerns about
this project, contact the above
representatives. Ron Lease should be on
site at some point each day coordinating
with the contractor. Kevin Lord can
address design and contract issues.*

Please join us for a pre-construction information meeting to discuss the roadway reconstruction of the Hillside Heights neighborhood.

Tentatively the contractor has set a completion date of September 2017. Work is expected to be begin after the July 4th Holiday.

The informal meeting will be held on Thursday – July 6, 2017 on site at the intersection of Everest and Andes Dr. (Rain or Shine.)

We look forward to meeting with you. All persons having an interest in the project are encouraged to attend. Please bring your questions or concerns to the neighborhood meeting.

During the project residents should expect to encounter narrow lanes and occasional flagging operations. Gravel patches, dust and rough roads will be present at all times. No parking will be allowed on project streets during the day whole work is in progress. Construction activities will cause some short-term inconveniences and nuisances. It is our intention to minimize as much as practically possible. We appreciate your patience and cooperation during construction. For everyone's safety please drive at a reduced speed, do not talk on a cell phone, expect delays and be patient. Also, please keep pets and children away from the construction activities and hot asphalt.

(Weather permitting.)
