2019 Road Maintenance Projects (Various locations)

Chip Seal Maintenance is scheduled to begin on various roads during the week of July 1, 2019, weather permitting. The project consists of the asphalt chip sealing of selected Town of Verona roads. Specific road locations include:

- White Crossing Road, Town Line to County Highway PD
- Spring Rose Road, South Town Line to Riverside Drive
- Spring Rose, US highway 151 to Dairy Ridge Road
- Marsh View Road, County Highway G to east end
- Sugar River Road, Riverside Drive to Marsh View Road
- Valley Road, WI 69 to Sugar River Road
- Manhattan Road, WI 69 to east end
- Fritz Road, Town line to Valley Road
- Jaggi Drive, Fritz Road to west end

Chip Sealing is a very effective method of road maintenance but, chip sealing does produce dust and loose stones until the stones become embedded in the pavement. Traffic will be maintained during the maintenance, but will be subject to flagging near the chip seal operation. Roadway users are advised to use caution on the newly chip sealed roadways. Once the chip sealing operation is complete, selected areas and intersections will be swept to minimize loose stone material.

For more information on the 2019 Road Maintenance Projects, please contact the Town of Verona at (608) 807-4471 or cbarnes@town.verona.wi.us or visit <http://www.town.verona.wi.us/>
